Scope of the Report

Attributes	Details
Title	The US Knee Implant Market: Size, Trends & Forecasts (2018-2022)
Coverage	The US
Forecast Period of Market	2018-2022
Competition in the Market	Market is dominated by top four players, as they captured majority share of the market.
Key Players	Zimmer Biomet Holdings, Inc., Stryker Corporation, Johnson & Johnson (DePuy Synthes); and Smith & Nephew

The US Knee Implant Market

Executive Summary

Defects in bones mainly occur due to diseases, accidents or sometimes naturally by birth. Such defects require reconstruction of bones with the use of natural and synthetic materials in order to replace the defected bone or to form a new bone. Orthopedic implant devices are solution to all these knee defects, which used as a prostheses serve to replace a portion of the body and include devices such as total joint replacements. Orthopedic implants include a wide variety of types on the basis of product. Major orthopedic implants type include: Reconstructive Joint Replacements, Spinal Implants, Dental Implants, Trauma & Craniomaxillofacial, and Orthobiologics.

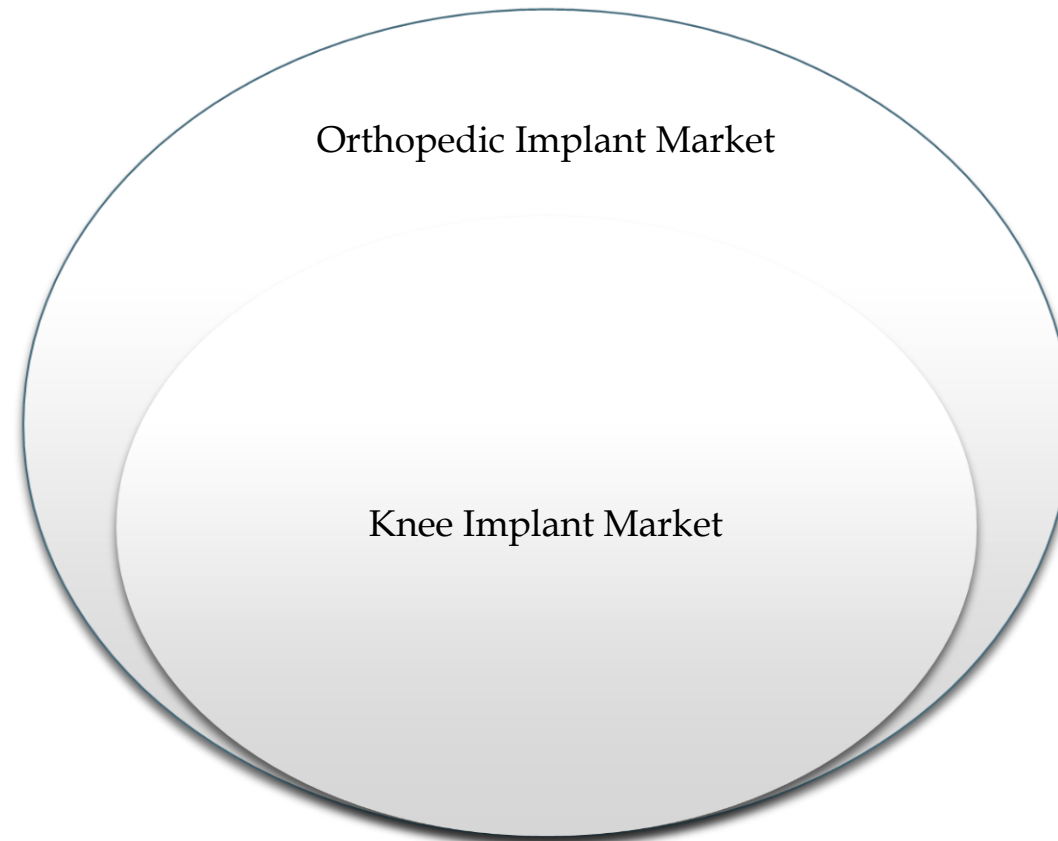

Reconstructive joint replacements include knee replacement implants, hip replacement implants and extremities. In knee replacement surgery, damaged knees are resurfaced with artificial components, and these are known as knee implants. A wide number of implants are available today that are used in knee replacement surgeries. Three types of knee implants are widely used by surgeons: single radius knee, fixed bearing and mobile bearing.

The US knee implant market has shown upward trends over the past few years and is anticipated that it would follow the same trend over the forecasted period also i.e. 2018-2022 with a significant growth rate on the back of growing elderly population in the region.

The growth in the market will primarily be driven by growing chronic rheumatic conditions, rising prevalence of obesity, rising healthcare spending, technological advancements, etc. Yet the growth of market is obstructed by some factors such as stringent medical regulations, product recalls by FDA and rising awareness of non-surgical alternatives.

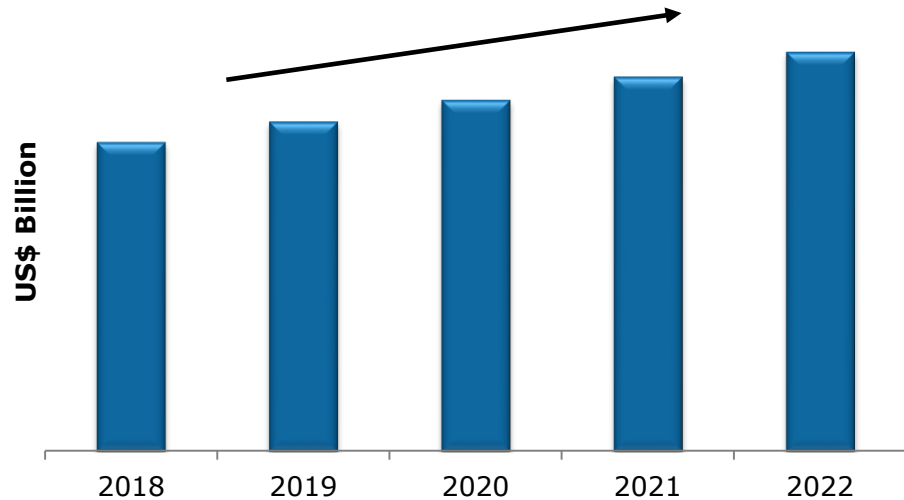

The US Knee Implant Market

Market Overview

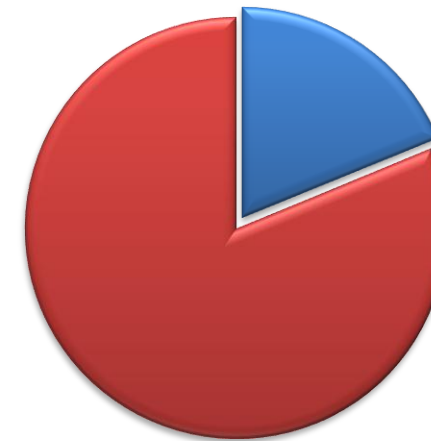

Orthopedic Implant Market: Global Analysis

Global Orthopedic Implants Market by Value; 2018-2022E (US\$ Billion)

CAGR	
2018-2022	xx%

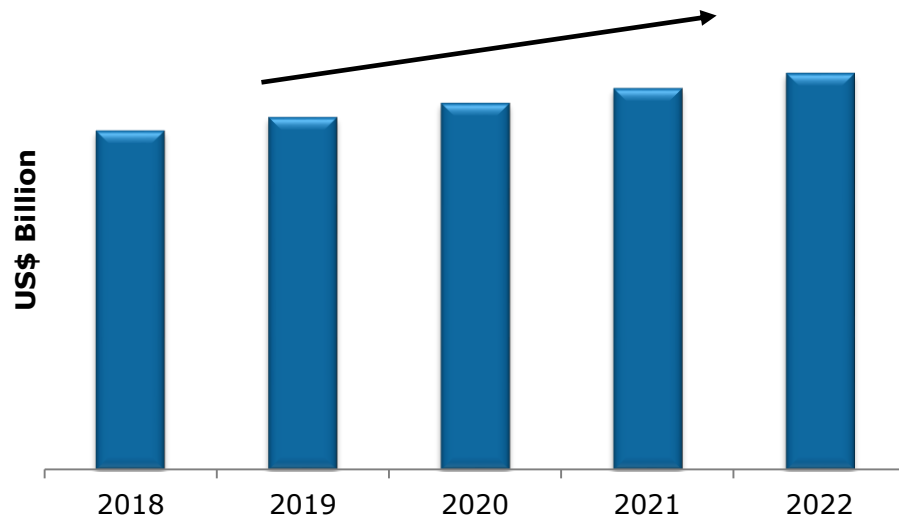

Global Orthopedic Implants Market by Segments; 2017

Segments	Share
Knee Implants	xx%
Other	xx%

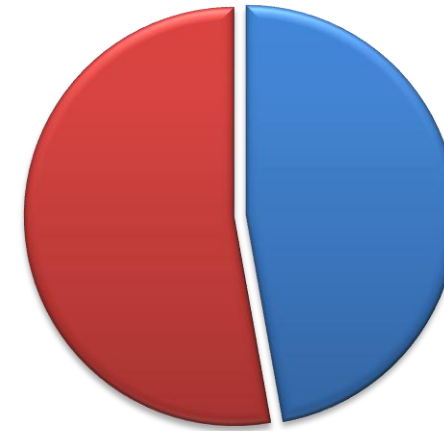

Knee Implant Market: Global Analysis

Global Knee Implant Market by Value; 2018-2022E (US\$ Billion)

CAGR	
2018-2022	xx%

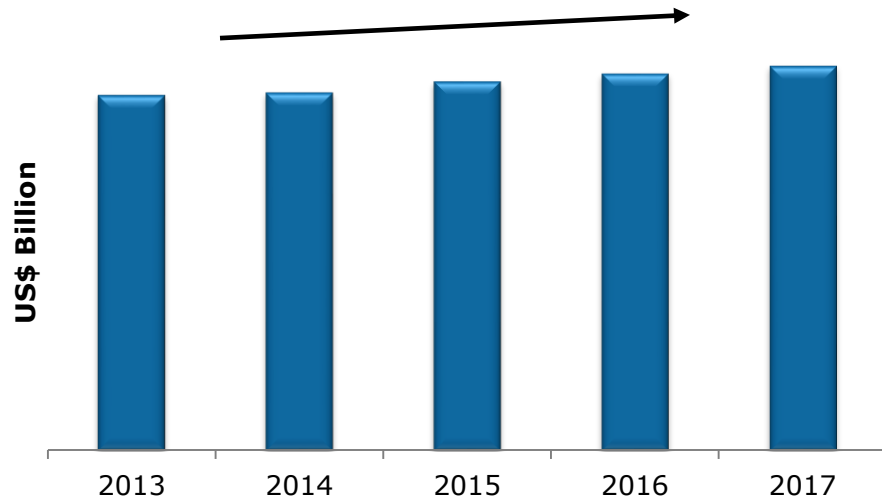

Global Knee Implant Market by Region; 2017

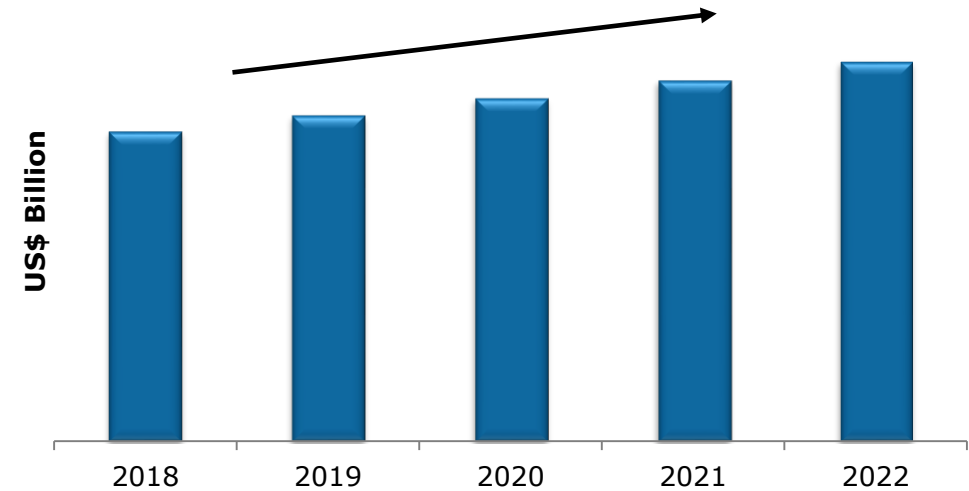

Region	Share
The US	xx%
Other	xx%

Knee Implant Market: The US Analysis

**The US Knee Implant Market by Value;
2013-2017 (US\$ Billion)**

**The US Knee Implant Market by Value;
2018-2022E (US\$ Billion)**

CAGR (2018-2022)	
2013-2017	xx%
2018-2022E	xx%

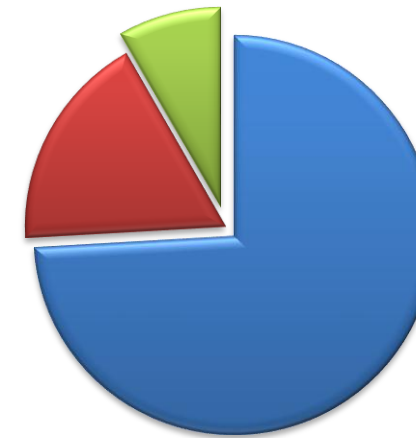

Knee Implant Market: The US Analysis

The US Knee Implant Market by Materials; 2017

Materials	Share
Titanium & Titanium Alloy	xx%
Cobalt-Chromium Alloy	xx%
Polyethylene	xx%
Stainless Steel	xx%
Ceramic	xx%
Other	xx%

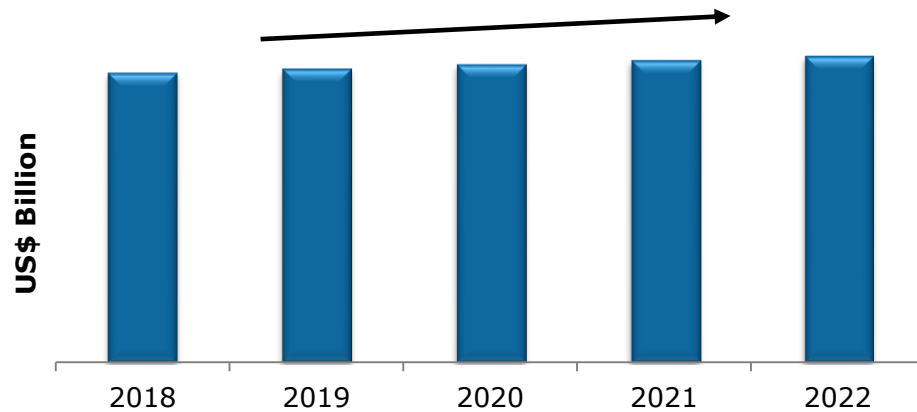

The US Knee Implant Market by Products; 2017

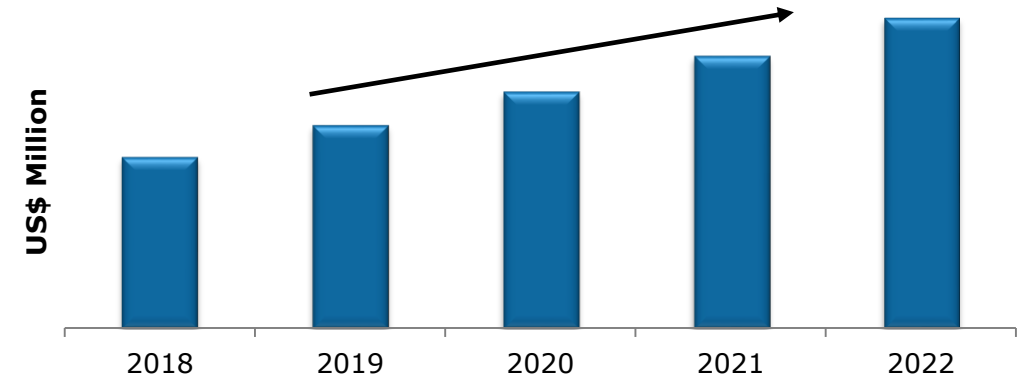

Products	Share
Total Knee Replacement	xx%
Revision Knee Replacement	xx%
Partial Knee Replacement	xx%

The US Knee Implant Market: Product Analysis

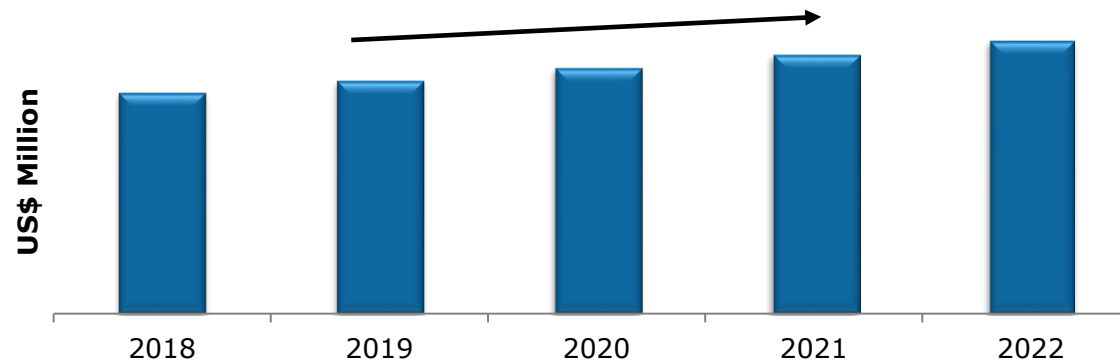

The US Total Knee Replacement Market by Value; 2018-2022E (US\$ Billion)

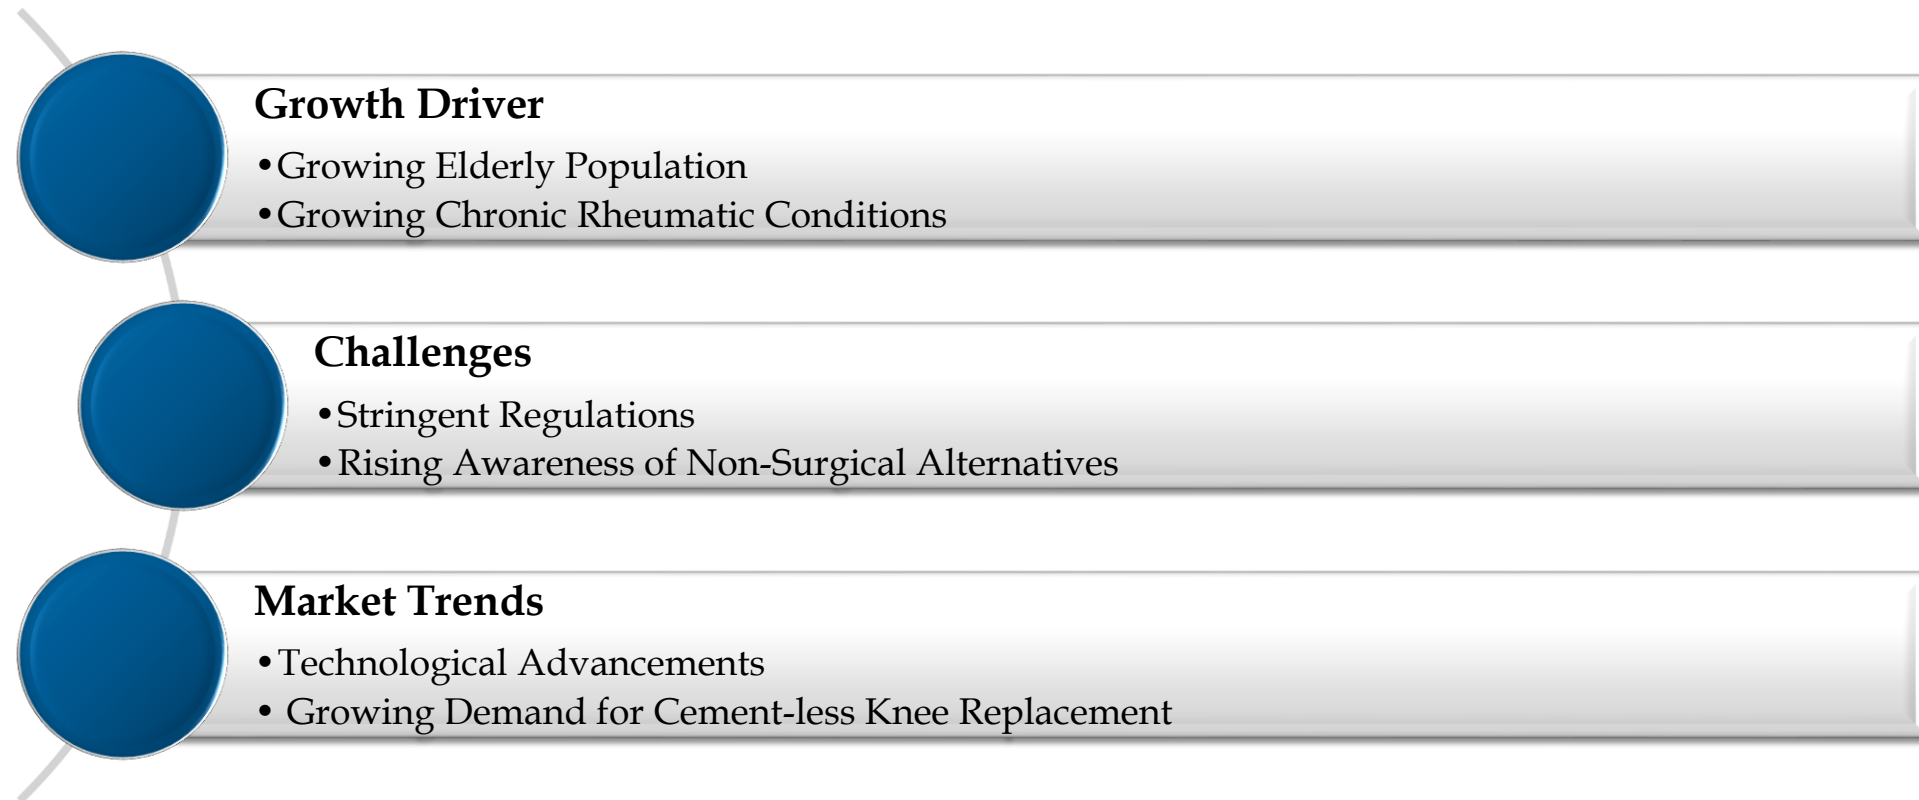

The US Revision Knee Replacement Market by Value; 2018-2022E (US\$ Million)

The US Partial Knee Replacement Market by Value; 2018-2022E (US\$ Billion)
