China Environmental Sanitation Services Market: Coverage

Scope of the Report

Attributes	Details
Title	China Environmental Sanitation Services Market: Size & Forecast with Impact Analysis of COVID-19 (2021-2025)
Coverage	China
Market Influencing Variables	Growth Drivers, Challenges, Market Trends
Forecast Period of Market	2021-2025
Competition in the Market	Fragmented
Key Players	Beijing Environmental Sanitation Engineering Group Co. Ltd., Tus Environmental Technology Development Co., Ltd., EIT Environmental Development Group Co., Ltd. Beijing Enterprises Urban Resources Group Ltd.

China Environmental Sanitation Services Market

Executive Summary

Environmental sanitation services refer to those services which include comprehensive road cleaning, garbage sorting, garbage collection and transportation, public toilet management, wastewater management, manure collection and transportation, pest and vector control, river cleaning services, etc.

The major purposes of environmental sanitation services are to develop and provide clean environment; to prevent transmission of diseases; and to promote the social, economic and physical well-being of all the people in the community.

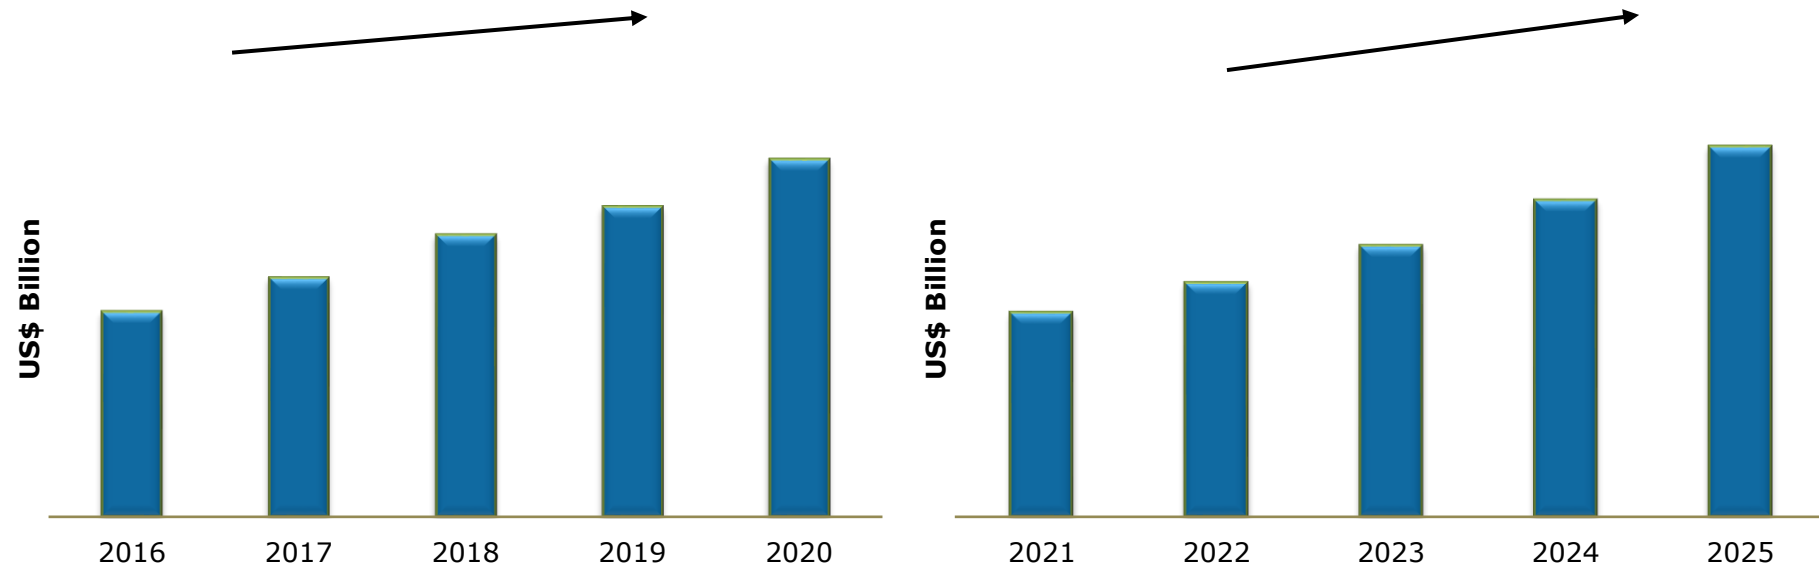

The environmental sanitation services can be bifurcated into several components, which are: pest and vectors control; food hygiene; disposal of the dead; control of rearing and straying of animals; collection and sanitary disposal of wastes; cleaning of public spaces; and inspection and enforcement of sanitary regulations.

The important factors to consider while providing sanitation services are hygiene status of the people; types of resources available; availability of innovative and appropriate technologies; socio-economic development of the region; cultural factors; political commitment; social factors; and adoption of legislative measures. The environmental sanitation services market can be segmented on the basis of type of service provider, namely the government agency sector and the enterprise sector.

China environmental sanitation services market has increased at a significant CAGR during the years 2016-2020 and projections are made that the market would rise in the next four years i.e. 2021-2025 tremendously. China environmental sanitation services market is expected to increase due to rapid urbanization, increasing production volume of hazardous waste, favorable government policies, stricter monitoring and penalty system, growing market demand for different Sub-sectors, etc. Yet the market faces some challenges such as high initial capital investment, lack of advanced technology, high requirements to obtain permit, etc.

Environmental Sanitation Services Market: China Analysis

China Environmental Sanitation Services Market by Value

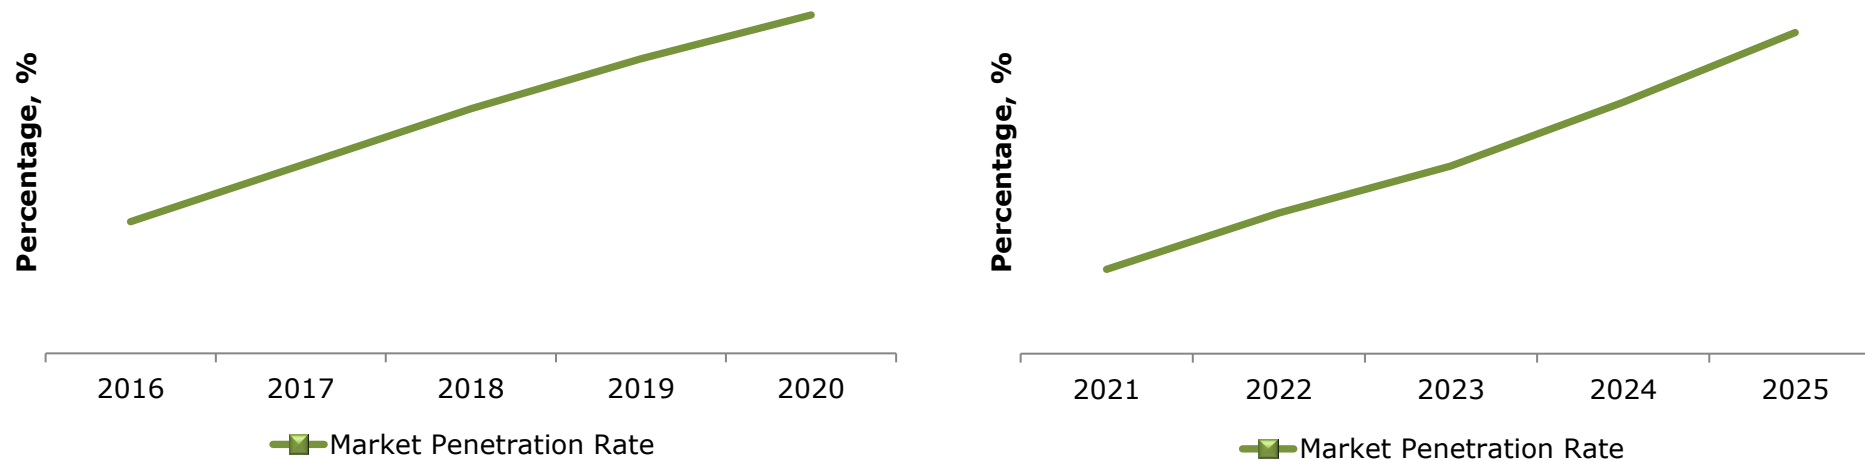

CAGR	
2016-2020	xx%
2021-2025	xx%

China environmental sanitation services market, valued at US\$... billion in 2020, increased as compared to US\$... billion in 2019. China environmental sanitation services market is anticipated to reach up to US\$... billion by 2025 from US\$... billion in 2021, increasing at a CAGR of% from 2021 to 2025..

Environmental Sanitation Services Market: China Analysis

China Environmental Sanitation Services Market by Penetration Rate

China environmental sanitation services market penetration rate, stood at ...% in 2020, increased as compared to ...% in 2019. China environmental sanitation services market penetration rate is anticipated to reach up to ...% by 2025 from ...% in 2021.

Environmental Sanitation Services Market: China Analysis

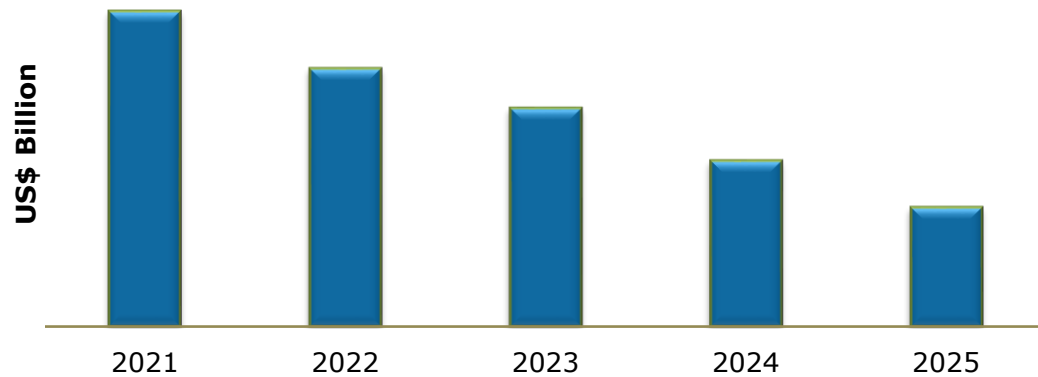

China Environmental Sanitation Services Market by the Type of Service Provider

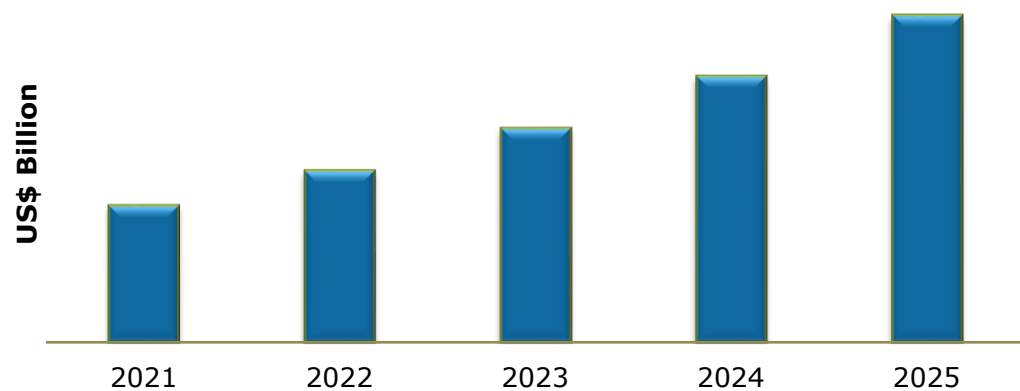

Type of Service Provider	Share
Enterprises	xx%
Government Agencies	xx%

China Environmental Sanitation Services Market: Service Provider Type Analysis

China Government Agencies Environmental Sanitation Services Market by Value

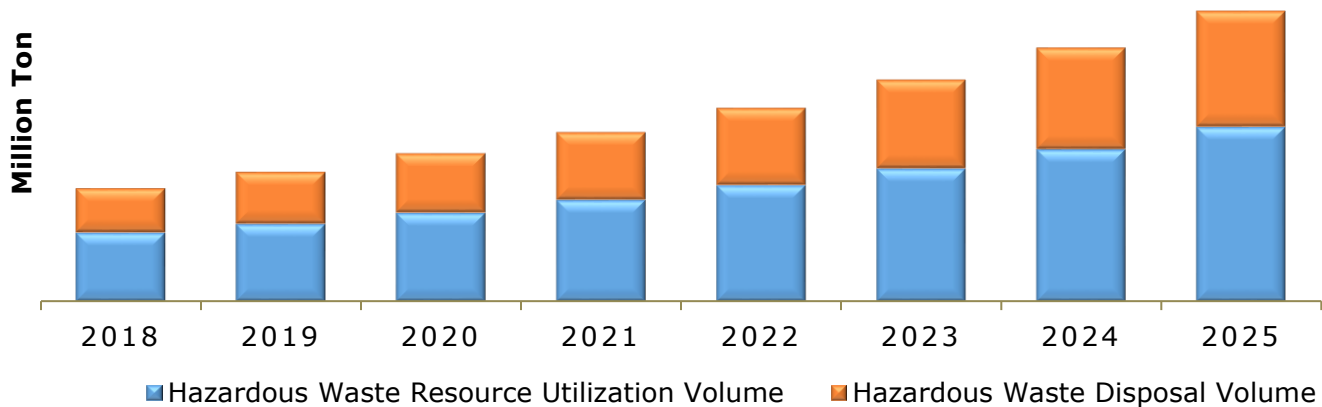

China Enterprises Environmental Sanitation Services Market by Value

Type of Service Provider	CAGR
	2021-2025
Enterprises	xx%
Government Agencies	xx%

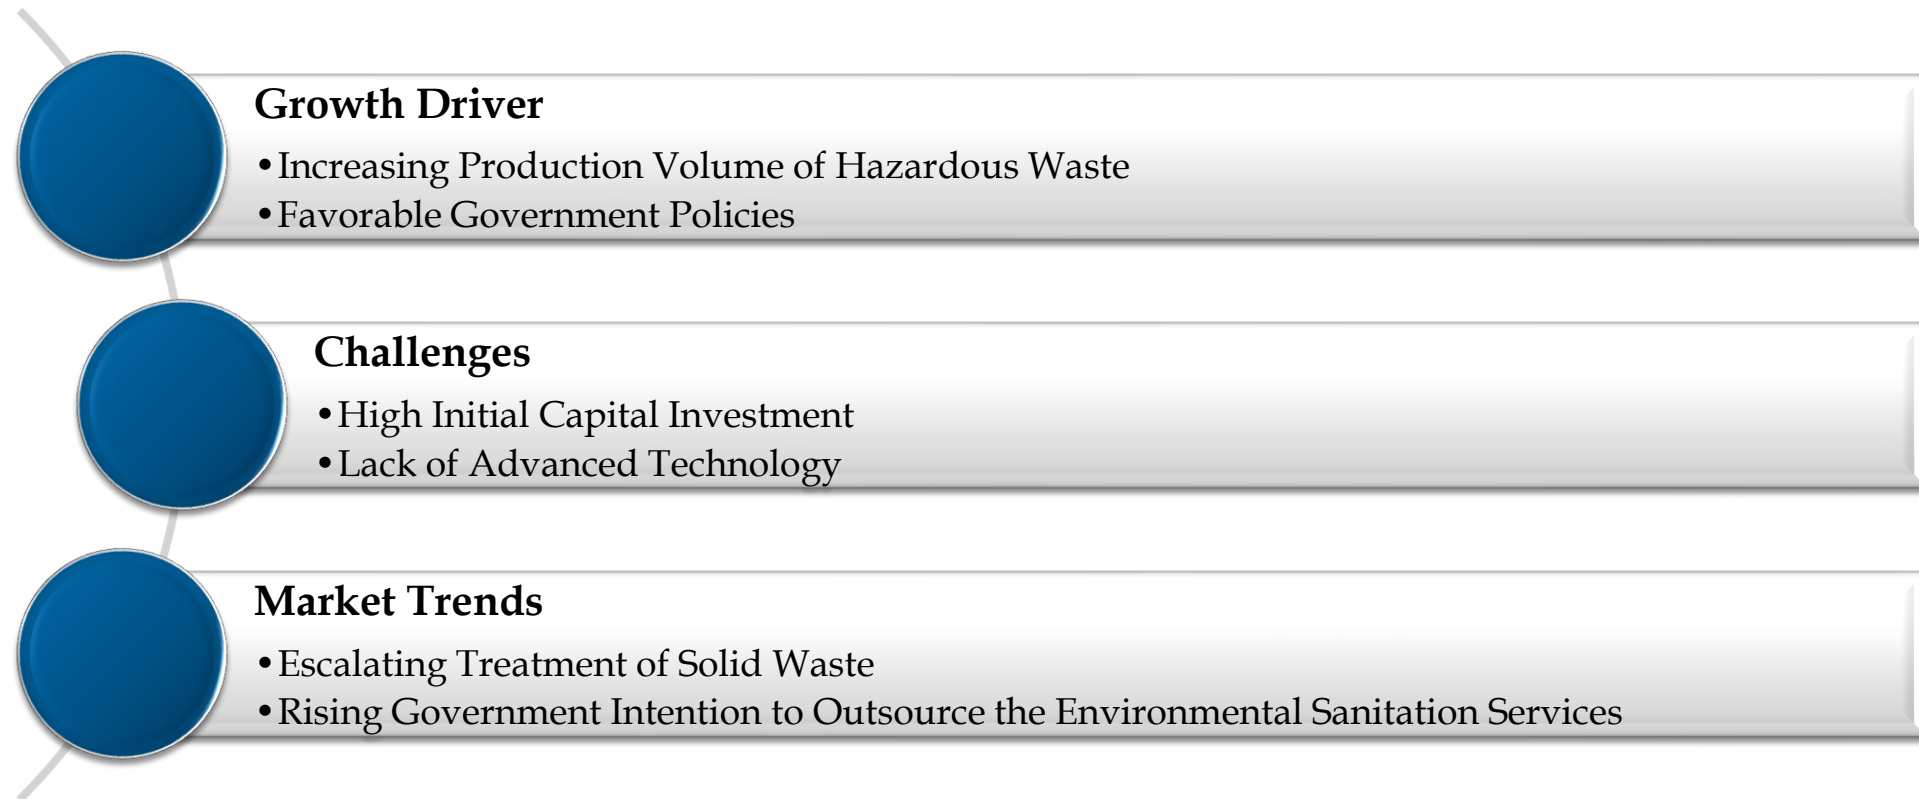

China Hazardous Waste Treatment Market: An Analysis

China Hazardous Waste Treatment Market by Volume

Segments	CAGR (2021-2025)
Hazardous Waste Resource Utilization Volume	xx%
Hazardous Waste Disposal Volume	xx%
