Scope of the Report

Attributes	Details
Title	Global Surveillance Camera Market: Analysis By System Type, By Technology, By Region Size and Trends with Impact of COVID-19 and Forecast up to 2027
Coverage	Global and Regional
Regional Coverage	Asia Pacific (China, Japan, South Korea, India, Australia and Rest of the Asia Pacific), North America (The US, Mexico and Canada), Europe (Germany, The UK, France, Italy, Spain, and Rest of the Europe), Rest of the World
Market Influencing Variables	Growth Drivers, Challenges, Market Trends
Forecast Period of Market	2022-2027
Competition in the Market	Dominated
Key Players	Robert Bosch GmbH, Panasonic Corporation, Honeywell International Inc., Cisco Systems, Inc., Sony Group Corporation, LG Electronics Inc., Hikvision, Dahua Technology, Axis Communications AB, Teledyne Technologies Incorporated, Hanwha Group, Motorola Solutions (Avigilon), Uniview

Global Surveillance Camera Market: Coverage

Executive Summary

Surveillance camera are video cameras used for the purpose of observing an area. They are often connected to a recording device or IP network, and maybe watched by a security guard or law enforcement officer. Surveillance camera can protect individuals or businesses from theft, fire, flood, or intrusion. The global surveillance camera market was valued at US\$28.02 billion in 2021 and is projected to reach US\$45.54 billion by 2027. Furthermore, the global surveillance camera market volume is expected to reach 524.75 million units in 2027, increasing from 214.30 million units in 2021.

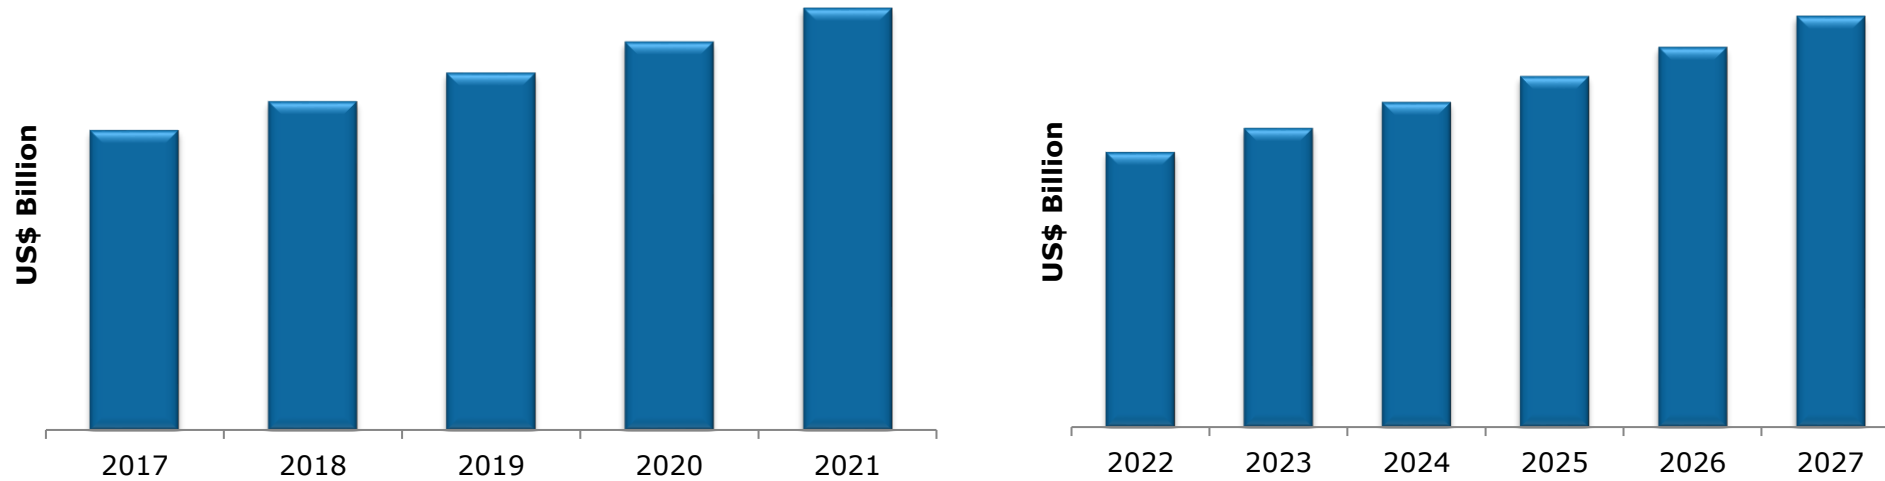

The surveillance camera market can be segmented on the basis of system type (Analog, IP Commercial, IP Consumer and Other Surveillance Camera). IP surveillance camera segment held more than 65% share in surveillance camera market in 2021. Also, the market can be segmented on the basis of technology (Image Signal Processor, Vision Processor, Vision Processor + AI). Image signal processor surveillance camera segment held more than 73% of the share in surveillance camera market volume in 2021.

The global surveillance camera market was impacted in many ways by the COVID-19 pandemic. In the wake of the COVID-19 pandemic, a wide range of surveillance cameras are turning out to be an effective way to serve the purpose of social distancing and other purposes. To keep a check on COVID patients, the surveillance camera were used in COVID wards. Also, thermal surveillance was initiated to check the temperatures to avoid the spread of COVID infections at crowded areas.

The global surveillance camera market has increased in 2021 and projections are made that the market would rise in the next five years i.e. 2022-2027 tremendously. There is a rapid growth of surveillance cameras in recent years for the purpose of reducing and preventing criminal activities. Criminal cases are decreasing proportionately as more of the cameras came into existence. The new infrastructure investment is giving significant new investment opportunities relating to the demand for surveillance cameras. Further, the market is expected to increase due to increasing urbanization, rising number of ATMs, growth in traffic management, technological improvement and development in surveillance camera industry, in recent years, yet the market faces some challenges such as, privacy issues, etc.
