Global Commercial Aerospace MRO (Maintenance, Repair & Overhaul) Market: Coverage

Scope of the Report

Attributes	Details
Title	Global Commercial Aerospace MRO (Maintenance, Repair & Overhaul) Market: Size, Trends & Forecasts (2021-2025 Edition)
Coverage	Global and Regional
Regional Coverage	North America, Western Europe, Asia Pacific, Middle East, China, Latin America, Eastern Europe, Africa & India
Market Influencing Variables	Growth Drivers, Challenges, Market Trends
Forecast Period of Market	2021-2025
Competition in the Market	Fragmented
Key Players	AAR Corp., ST Engineering (ST Aerospace), Deutsche Lufthansa AG (Lufthansa Technik AG) and Airbus SE (Airbus SAS)

Global Commercial Aerospace MRO Market

Executive Summary

Aerospace the term is derived from the words aeronautics and spaceflight. The aerospace industry performs regular checks on research, development & manufacturing of aircrafts inclusive of unpowered gliders & sailplanes, airships, missiles, spacecraft etc.

Maintenance, repair and overhaul (MRO) of an aircraft is a process involving repairing, welding, plating or testing services carried by a group of technical, administrative, managerial and supervision actions. The MRO service providers are categorized as in-house airline MRO, third party airline MRO, OEM-affiliated MRO etc.

MRO services are common for aerospace maintenance, as aerospace industry conducts consistent research on designing, maintenance and manufacturing of aircrafts, as the scope of the aerospace industry is very wide with a variety of commercial, military & industrial aircrafts that are operating in the earth's atmosphere as well as in space.

The global commercial aerospace MRO market has observed constant growth in the past few years and projections are made that in the forecasted period (2021-2025) the market would propel with a steady growth rate. The global commercial aerospace MRO market would be supported by the growth drivers such as increasing number of fleets, growth in urban population, budding developing countries economy, growing tourism, increasing low cost carrier (LCC) penetration and mandatory maintenance programme for ageing aircrafts. However growth of global commercial aerospace MRO market is being hindered by various challenges. Some of the eminent challenges faced by the market are fluctuating fuel cost, CO2 emission from aviation etc.

Commercial Aerospace MRO (Maintenance, Repair & Overhaul) Market: Global Analysis

Global Commercial Aerospace MRO Market by Value
