Global Telemedicine Market (Telehome, mHealth and TeleHospital Market): Coverage

Scope of the Report

Attributes	Details
Title	Global Telemedicine Market (Telehome, mHealth and TeleHospital Market) (2019-2023 Edition)
Coverage	Global and Regional
Regional Coverage	North America, Europe, Asia Pacific and Latin America
Market Influencing Variables	Growth Drivers, Challenges, Market Trends
Forecast Period of Market	2019-2023
Competition in the Market	Ambiguous
Key Players	Teladoc Inc., AMD Global Telemedicine Inc., Honeywell Life Care Solutions and Doctor On Demand

Global Telemedicine Market (Telehome, mHealth and TeleHospital Market)

Executive Summary

Healthcare is defined as the procedure or methods employed in alimentation and enhancement of health. The healthcare procedure involved diagnosis, treatment and prevention of diseases by healthcare professionals like physicians, dentistry, chiropractic, optometry, psychology and others. The healthcare can be classified into: traditional itinerant healthcare, in which patient get diagnosed from healthcare professional by visiting hospital and clinics ;and on-demand healthcare, which involves technology interference in healthcare, to provide facilities to obtain healthcare services at any place and time.

The on-demand healthcare is further categorized in three categories: brick-and-mortar, telehealth and telemedicine. The brick-and-mortar helps in providing the nearby hospitals, clinics and healthcare location to the patients. The telehealth comprised of software and technologies that facilitates the customers to monitor their health 24*7 by own through websites, mobile applications and others. The telemedicine deals in remotely delivery in healthcare services like, health assessments or consultations, with the help of telecommunication network. There are three broad categories of telemedicine: Two-way audio/visual communication; remote monitoring; and store-and-forward, providers share patient medical information like lab reports at another location.

The telemedicine market is segmented into three segments: on the basis of end user, it consist of the telehome, mHealth users and telehospital users; on the basis of medium, it contain a telemedicine technology and telemedicine services; and on the basis of specialty, like Dermatology, Gynecology, Cardiology, Neurology, Orthopedics, etc. The global telemedicine market is expected to increase at high growth rates during the forecasted period (2019-2023). The global telemedicine market is supported by various growth drivers, such as increasing ageing population, increasing chronic diseases, rising per capita healthcare expenditure, technological innovation, reach in rural and remote area, etc. Yet, the market faces certain challenges, such as, resistance in accepting technology, high implementation cost, legal issues, lack of infrastructure, etc.

Telemedicine Market (Telehome, mHealth and TeleHospital Market): Global Analysis
