Scope of the Report

Attributes	Details
Title	Global Psychedelic Drugs Market: Size & Forecast with Impact Analysis of COVID-19 (2021-2025)
Coverage	Global
Market Influencing Variables	Growth Drivers, Challenges, Market Trends
Forecast Period of Market	2021-2025
Competition in the Market	Moderately Fragmented
Key Players	COMPASS Pathways Plc, Mind Medicine (MindMed) Inc., Numinus Wellness Inc., Johnson & Johnson

Global Psychedelic Drugs Market

Executive Summary

Psychedelic drugs are a group of substances that are able to induce and enhance sensory perceptions, thoughts, and energy levels. Psychedelic drugs were used excessively in the 1960s, but the use was halted for mainly political reasons. However, recently, the use of psychedelics is evolving for the treatment of a variety of mental illnesses, including anxiety, depression, post-traumatic stress disorder, etc.

Some psychedelic drugs are extracted from plants or mushrooms, and some are synthetic (human-made). These drugs are now considered effective for patients with treatment-resistant depression, as they are fast-acting and long-lasting.

The most common psychedelic substances include: Ketamine, Psilocybin, Ibogaine, LSD, Dimethyltryptamine (DMT), or MDMA. The majority of psychedelic drugs under development are targeting mental and/or behavioral health indications. This is an area with significant unmet need.

The psychedelic drugs market can be segmented on the basis of indication (ADHD, MDD, Bipolar, Migraine, Anxiety, Parkinson's Disease, OUD, Alzheimer's Disease, AUD, TUD, Eating Disorder, and Narcolepsy); and drug type (Lysergic Acid Diethylamide (LSD), Ketamine, Psilocybin, 3,4-MethylEnedioxyMethamphetamine (MDMA), Ibogaine, and Others).

The global psychedelic drugs market has increased significantly during the years 2018-2020 and projections are made that the market would rise in the next four years i.e. 2021-2025 tremendously. The psychedelic drugs market is expected to increase due to rising prevalence of depression and mental disorders, regulatory reforms, developments relating to psychedelics, changing perceptions, little severe side effects and cost effective, etc. Yet the market faces some challenges such as uncertainty around getting the FDA approval, early stage in lifecycle of the psychedelics industry, stigma associated with psychedelic drugs use, etc.

Psychedelic Drugs Market: Global Analysis

Global Psychedelic Drugs Market by Value

The global psychedelic drugs, valued at US\$... billion in 2020, increased as compared to US\$... billion in 2019. The global psychedelic drugs market is anticipated to reach up to US\$... billion by 2025 from US\$... billion in 2021, increasing at a CAGR of ...% from 2021 to 2025..

Psychedelic Drugs Market: Global Analysis

Global Psychedelic Drugs Market by Indication; 2020

Indication	Share
Attention Deficit Hyperactivity Disorder (ADHD)	xx%
Major Depressive Disorder (MDD)	xx%
