# Global Movie Theatres Market

## Executive Summary

A movie theatre is a place which comprises an auditorium for watching movies. In movie theatres, film is projected with a movie projector on a large projection screen at the front of the auditorium while the songs, dialogue and music are played through a number of speakers. A wide variety of movies are shown at theatres ranging from blockbuster, animated films, and documentaries.

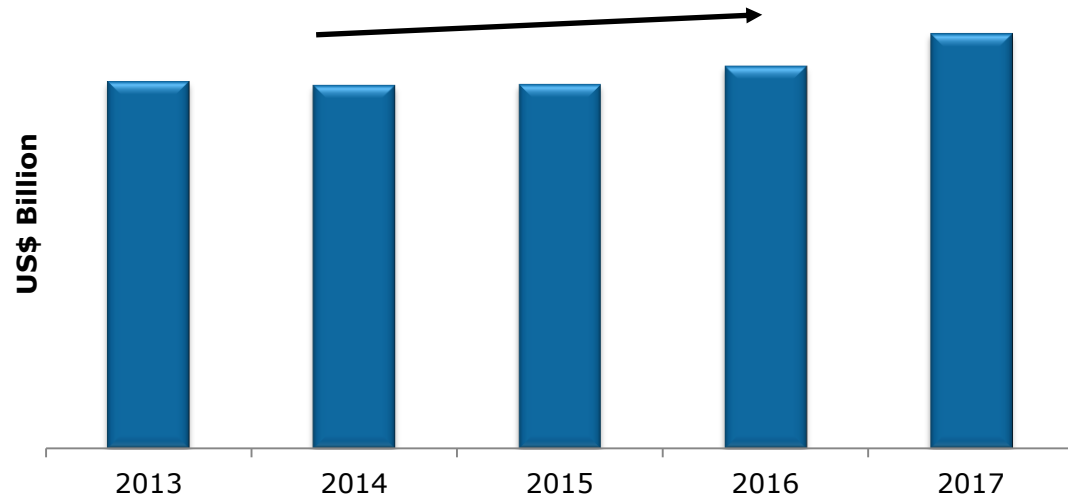

Movie theatres are broadly categorized into four types namely Multiplexes and megaplexes, IMAX, Independent and Second Run and Drive In. A place at a movie theatre where tickets are bought or reserved is known as box office.

The global movie theatre market has grown at a rapid pace in the past few years with the high growth of the global box office market. The global box office market increased at a notable CAGR over span of five years, i.e. 2013-2017 and predictions are that the market would follow the same trend over the forecasted period as well i.e. 2018-2022.

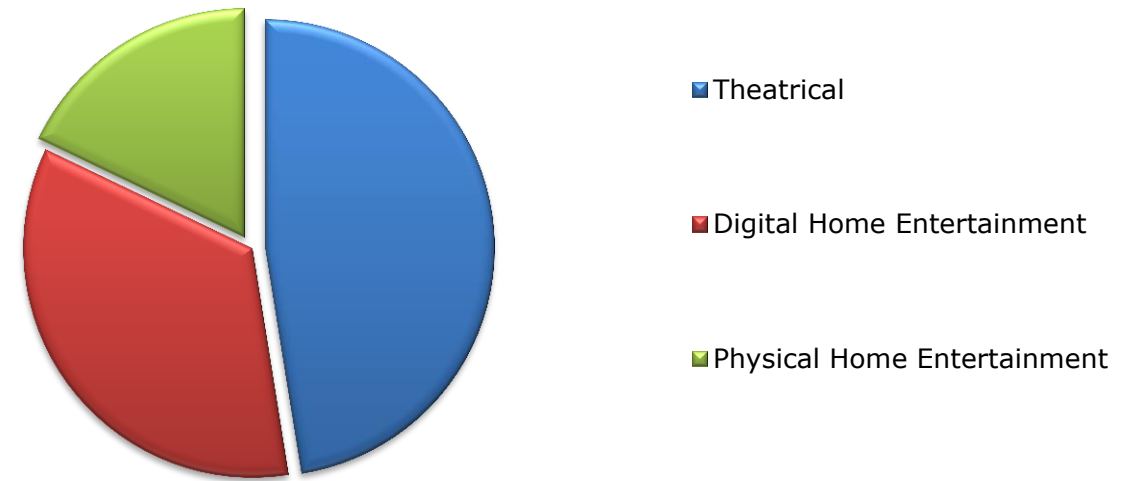

Growth in the market are primarily driven by factors such as: digitization in the media and entertainment space, innovation in the film industry, rising number of frequent moviegoers, investment in new theatre technology and rising consumer spending on box office etc.
