Global Medical Devices Market with Focus on Patient Monitoring Devices : Coverage

Scope of the Report

Attributes	Details
Title	Global Medical Devices Market with Focus on Patient Monitoring Devices: Size, Trends & Forecasts (2019-2023)
Coverage	Global and Regional
Regional Coverage	North America, Europe, Asia Pacific, Latin America and Middle East and Africa
Market Influencing Variables	Growth Drivers, Challenges, Market Trends
Forecast Period of Market	2019-2023
Competition in the Market	Fragmented
Key Players	Medtronic plc, General Electric Company (GE Healthcare), Abbott Laboratories, Koninklijke Philips N.V. (Philips Healthcare)

Global Medical Devices Market with Focus on Patient Monitoring Devices

Executive Summary

A medical device refers to any instrument or machine, which is required to be used for the treatment, cure, prevention or diagnosis of different kinds of diseases. The main purpose of the medical devices is to help the healthcare professionals in improving the way they diagnose patients or to help patients overcome sickness or diseases. Medical devices can be segmented on the basis of application, which include orthopedics, minimally invasive, cardiology, ophthalmology, wound care, patient monitoring, audiology, respiratory-anesthesia, uro-gynecology, neurology, aesthetics, robotics-navigation and others.

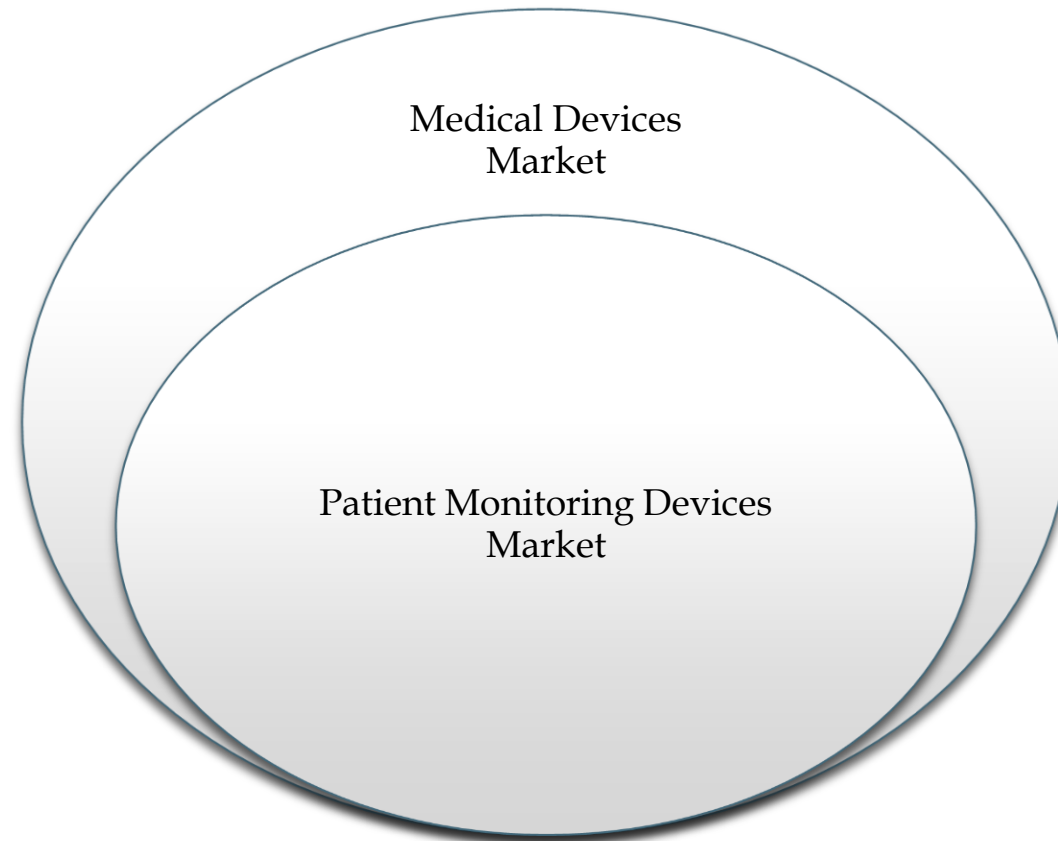

Patient monitoring devices are those devices that are used for monitoring patient's conditions, such as blood pressure, heart rate, diabetes, respiratory rate, pulse, body temperature, oxygen saturation in human blood, etc. Nowadays, the two types of patient monitoring devices are commonly used, which are: Single Parameter Patient Monitoring Devices and Multi-Parameter Patient Monitoring Devices.

The patient monitoring devices market can be segmented on the basis of product (Vital Sign Monitors & Special Monitors); Application (Cardiology, Neurology, Respiratory, Fetal and Neonatal, Weight Management and Fitness Monitoring and Other Applications) and End-user (Home Healthcare, Ambulatory Care Centers, Hospitals and Other End Users).

The global medical devices market with focus on patient monitoring devices has increased at a significant CAGR during the years 2014-2018 and projections are made that the market would rise in the next four years i.e. 2019-2023 tremendously. The medical devices market with focus on patient monitoring devices is expected to increase due to growing geriatric population, rapid urbanization, growing incidence of chronic diseases, increasing healthcare spending, etc. Yet the market faces some challenges such as high cost involved, stringent government regulations, etc.
