## Scope of the Report

Attributes	Details
Title	The US Small Household Appliances Market: Analysis By Category (Cooking, Home Environment, Food Preparation and Personal Care), By Product (Small Kitchen Appliances, Vacuum Cleaners, Grills & Roasters, Coffee Machines, Microwave Ovens, Irons, Hair Clippers, Toasters, Hair Dryers and Electric Kettles), By Distribution Channel (Online and Offline), Size & Forecast with Impact Analysis of COVID-19 and Forecast up to 2029
Coverage	The US
Market Influencing Variables	Growth Drivers, Challenges, Market Trends
Forecast Period of Market	2024-2029
Competition in the Market	Moderately Fragmented
Key Players	Haier Group Corporation, Newell Brands Inc., Samsung Electronics Co., Ltd., LG Electronics Inc., Whirlpool Corporation, Panasonic Corporation, Electrolux AB, Robert Bosch GmbH, Spectrum Brands, Dyson Limited, Smeg SpA and Hamilton Beach Brands Holding Company

# The US Small Household Appliances Market: Coverage

## Executive Summary

Household appliances are electrical or mechanical applications which accomplish some routine housekeeping task, such as cooking, cleaning, etc. Additionally, the appliances are also beneficial to manage routine functions like purifying, food preservation, etc., effectively and efficiently. The US small household appliances market in 2023 was valued at US\$27.17 billion. The market is expected to reach US\$38.01 billion by 2029, growing at a CAGR of 5.87% during the forecast period of 2024-2029. Also, the US small household appliances market by volume is expected to grow to 456.58 million in 2029.

The US small household appliances market can be segmented based on Category (Cooking, Home Environment, Food Preparation, and Personal Care); Products (Small kitchen appliances, Vacuum Cleaners, Grills & roasters, Coffee machines, Microwave ovens, Irons, Hair clippers, Toasters, Hair dryers and Electric Kettles); and Distribution Channel (Online and Offline). Cooking segment held the major share in 2023, due to the rise in urban population, growth in adoption of methods to conserve natural resources and reduce negative impact on the environment, and rise in demand for easy and fast cooking appliance.

The outbreak of Coronavirus illness harmed the US small household appliance sector in 2020, as governments around the world instituted lockdowns. The dip in 2020 was not as severe, and the market recovered in 2021 as a result of increased consumer spending, an increase in the number of single-person households, the launch of new businesses, and so on. The market is likely to grow in the future as many companies introduce novel tiny household appliances and the sector makes extensive use of artificial intelligence and cloud computing.

The US small household appliances market has increased in 2023. The projections are made that the market would rise in the next five years i.e. 2024-2029 tremendously. The US small household appliances market is expected to increase due to growing number of single-person households, rise in disposable income and younger population, etc. Yet the market faces some challenges such as increased tariffs on raw materials, rising privacy threats, etc. Moreover, the market growth would succeed to various market trends like cloud technology, rising AI technology, growing influence of social media, etc.
