# Global Acne Treatment Market: Coverage

## Scope of the Report

Attributes	Details
Title	Global Acne Treatment Market: Size, Trends & Forecasts (2021-2025) Edition
Coverage	Global and Regional
Forecast Period of Market	2021-2025
Competition in the Market	The market is dominated by few major players.
Key Players	Foamix Pharmaceuticals Ltd., Bausch Health Companies Inc. (Formerly Valeant Pharmaceuticals International, Inc.), Allergan (Actavis Plc), Nestle (Galderma S.A.)

# Global Acne Treatment Market

## Executive Summary

Acne is a disorder of the skin that is caused by inflammation of the skin glands and hair follicles and is characterized by comedones and pimples specifically in certain areas like on the face, back and chest etc. During acne, sebaceous glands become clogged and infected which result in the formation of acne. It is most commonly found in teenagers and adolescents but also occurs in infants and adults. Depending on its severity, acne can cause emotional distress and scar the skin. Acne Vulgaris is the medical term for common acne. Acne can be mild, moderate or severe.

There are four main causes of acne vulgaris: hyper-keratinization, excess sebum production, bacteria Propionibacterium and inflammation. Dermatologists have the most experience treating different types of acne. There are six types of acne: Acne Rosacea, Acne Cosmetica, Acne Fulminans, Acne Keloidalis Nuchae (AKN), Acne Chloracne and Acne Medicamentosa. Several treatments are available in the market nowadays with effective results. Acne can be treated through three therapies namely systematic therapy, topical therapy and physical therapy. Currently acne treatment market is dominated by topical therapy or topical drugs that is widely used by large number of population for acne treatment.

The global acne treatment market has shown upward trends over the past few years and projections are made that the market would grow at a steady pace over the forecasted period (2021-2025) also. Global acne treatment market is supported by a number of growth drivers such as rising disposable income, high global prevalence rate of acne, unhealthy eating habits, adoption of various less painful aesthetic combination therapy procedures etc. Yet, there are certain challenges such as entry of generic drugs, safety issue regarding products, increasing acceptance of ant-acne treatment, etc. that hinder the growth of the market.

Some of the latest trends related to the Acne treatment market that have been captured in this report are efforts like acquisitions and collaboration by relevant players to expand their presence and scope of Artificial Intelligence (AI) technology within the Acne treatment market.
