China Ophthalmic Service Market

Executive Summary

Ophthalmology is the branch which is dedicated to the treatment of eye related diseases with using both medicine and surgical methods. In layman terms, the stream deals with the identification and treatment of eye disorders. Doctors who are professional in the ophthalmology are known as ophthalmologists. Their qualifications include a degree in medicine, along with additional four years of ophthalmology residency training.

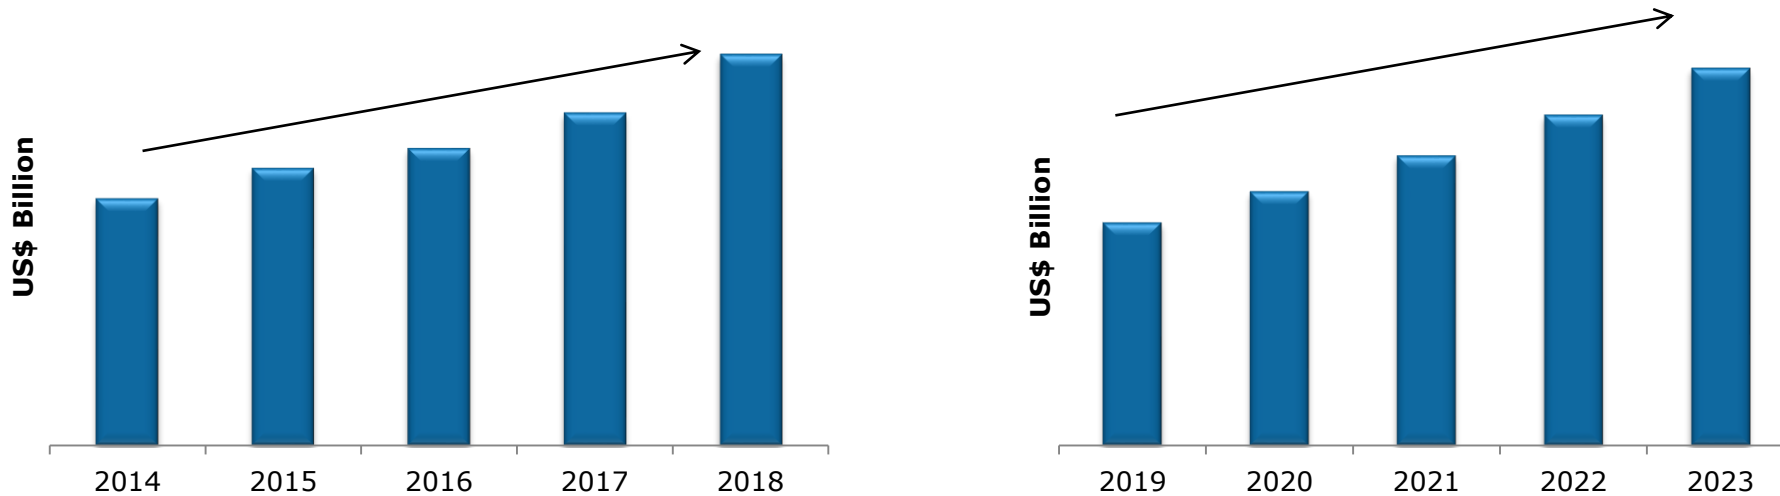

There are many eye diseases which are diagnosed and treated under ophthalmology such as cataract, glaucoma, macular degeneration, dry eyes, strabismus, uveitis, proptosis, and many more. Most common eye diseases in China includes myopia (especially in school going children), glaucoma, and cataract. Other diseases are also prevalent in the region. There are many advantages and disadvantages which are associated with being an ophthalmologists. Advantages such as high demand, minimal stress, private practice opportunities, etc. vs. different disadvantages like expensive education, malpractice insurance and expensive equipment's.

Ophthalmic services the term used to define those services which are provided for the treatment of eyes, from identification, selection of products, till treatment and follow-up's. It covers both routine and urgent cases. There are many eye products which are provided by an ophthalmologist such as eye drops, eye lotion, eye ointment, eye suspensions and contact lens with solution for the treatment of eyes before and after surgery.

The China Ophthalmic Service Market is expected to increase at high growth rates during the forecasted period (2019-2023). The China ophthalmic service market is supported by various growth drivers, such as growing ageing population, increasing purchasing power, growing eye diseases prevalence, etc. the market faces certain challenges, such as, high cost of surgeries and ophthalmic surgical instruments, lack of ophthalmologists, etc. few new market trends are also provided such as, rapid consolidation between medium and large players, government support , etc.
