China Furniture Market with Focus on Custom Furniture

Executive Summary

Furniture are those moveable objects which are manufactured with the intention to support human activities such as seating, eating, and sleeping. Furniture are of various types such as table, chair, sofa, bed, wardrobes, cabinets etc. Moreover, furniture can also be designed for decorative purposes. Wood is the most important raw material for furniture.

Furniture can be classified into three types: home, office and contract. Home furniture are the one which are manufactured as per any house requirements. This segment includes bed, sofas, dining table, kitchen cabinets, wardrobes, etc. Office furniture's are applied in offices such as desks, chairs, reception desks, etc.

Production of a furniture is accomplished in three ways. These are hand made, finished furniture and custom furniture. Custom furniture are those furniture that a craftsmen builds in accordance to the customer's specifications. Customized furniture's permits customers to select various features on their own such as color, type of material used, finish, and design, among other things. Owing to the changing demand, many furniture companies are coming up with personalized product designs, and have established factories which are capable of large-scale production, and offers installation services.

China furniture market with focus on custom furniture is expected to increase at high growth rates during the forecasted period (2019-2023). China furniture market with focus on custom furniture is supported by various growth drivers, such as rising urban population, growing online furniture shopping, increasing demand for furniture upgrade from luxury hotels, etc. The market faces certain challenges, such as, challenge from real estates cycle, high raw material prices compared to profits, etc. Few new market trends are also provided such as, Acceptance for eco-friendly furniture, inauguration of furniture malls, etc.
