Global Concession Catering Market Report

Executive Summary

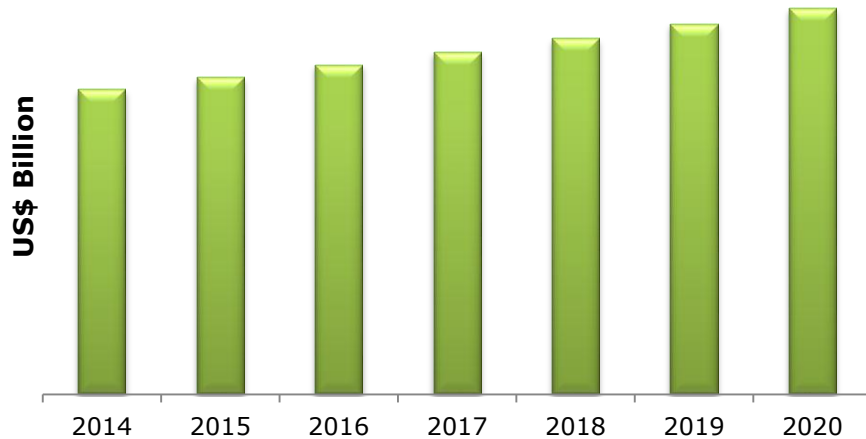

Preparation and selling of food away from home is known as food service. Food service market can be segmented into commercial and institutional segment. Concession service means the grant of right by the government, authority, corporation, etc. to a third party for provision of some service. A concession may also include a particular infrastructure for use, in return for sum amount, which can be fixed or variable. Some examples of concession service are: staff canteens, ATM machines, advertising hoardings, catering, etc.

Concession catering refers to the catering service by the concession catering company to the customers at airports, railway stations and motorways. The duration, capex requirement and concession type varies in all three segments of the market.

The concession catering market is expected to increase at a significant growth rate during the forecasted period (2016-2020). The global concession catering market is supported by various growth drivers, such as increase in GDP, declining oil prices, low food prices, increasing air travel, etc. Yet, the market faces certain challenges, such as, reduced focus on motorways, adverse effects of violence and political instability, etc.
